

BARASTOC

ESSENTIAL FEEDS

PULLET GROWER

COMPLETE & BALANCED CRUMBLE

WHAT WILL IT PROVIDE MY CHICKEN?

Each pellet is a concentrate of high quality ingredients specifically formulated to provide the right balance of protein, energy and phosphorus to help pullets transition from immature birds into strong healthy adult laying birds.

Contains an anticoccidial as an aid in the prevention of coccidiosis*, an intestinal infection caused by the Eimeria parasite which young birds are vulnerable to.

Presented as a small crumble which is suitable for small beaks.

*For more information about this condition refer to the Barastoc Chook Book.

FEEDING GUIDE

Ensure birds have continuous access to feed - do not restrict consumption. Expected pullet intakes are 95g/bird/day.

Self feeders designed for poultry are a good way to ensure feed is continuously available.

Ensure birds have access to clean, fresh water at all times.

Follow any other feeding instructions given to you by your livestock provider.

The manufacturer accepts no responsibility if this feed is used in quantities, conditions or in any way other than in accordance with the manufacturer's recommendations.
